

# The Lasting Difference:

An elearning double bill!

You're invited to sign up for an elearning double bill with brand new content. The programme will include two courses:

- The Lasting Difference: Principles and Practices.
- The Lasting Difference: The Five Capabilities.

This is practical and participatory e-learning with expert input and supportive peers.

**Intake: 3<sup>rd</sup> October – 24<sup>th</sup> December 2022.**

Both courses are a uniquely enjoyable way to get inside the [Lasting Difference toolkit](#) and bring it to life in your organisation. *Principles and Practices* is our established course, covering part one of the toolkit and *The Five Capabilities* is a brand new course covering part two. Participatory activities, peer support and guided reflection help you explore the toolkit, developing your own responses among supportive peers.

## Content

The courses support an in-depth exploration of the toolkit, breaking the themes into sections. *Principles and Practices* looks each of the sustainability challenges for non-profits, funders and commissioners. *The Five Capabilities* takes a deep dive into the core foundations of sustainability.

In both courses, each section is structured to provide:

- An introduction to the topic, including short videos and animations.
- Activities to get you thinking about the topic.
- A downloadable reflective journal to develop your own ideas and reframe things in the context of your own practice.
- A collaborative forum to generate examples, experiences and resources with other learners.
- Exclusive resources and content not available anywhere else, including case studies from the sector.

You'll also have free access to three live online group sessions (see below).

## Duration

This cohort of the course is free to access, all we ask for is your commitment. Places are limited, so please only sign up if you can commit the time to get the most from the experience. Each course takes around six hours to complete which can be done in your own time over a twelve-week period. With the additional three group sessions, this provides fifteen or more hours of learning, giving you the tools and confidence to start leading your organisation towards sustainability.

## Dates and timing

The courses will be open to you on 3<sup>rd</sup> October, and you will have until 24<sup>th</sup> December to complete them. It is up to you how you manage your time and work through the content, but people usually find it beneficial to structure their time around the three online practice sharing sessions:

On **3<sup>rd</sup> October, 1.30-2.30pm** we will have a **Course introduction** to meet, get to know each other, share our thoughts on sustainability and ask any questions.

On **10<sup>th</sup> November, 9.30-10.30am** we will meet again to have a **Sustainability reflection** and work through core concepts of *Principles and Practices*, sharing experiences and developing ideas.

A final session on **13<sup>th</sup> December 2-3pm** allows a final opportunity to come together for **Peer support** with a focus on *The Five Capabilities*.

## Participant feedback
